

GERMANY'S REPLY TO TERMS OF THE ALLIES BEFORE BIG FOUR AT CONFERENCE TODAY

Communication Formally Delivered to Allied Conference Today.

NEXT STEP NOT INDICATED

Immediately on Presentation of the Counter Proposals It Was Expected That Count von Brockdorff-Rantzau Would Leave Versailles Today.

By Associated Press.

Germany today made formal reply to the treaty terms presented to her on May 7. While not as voluminous as recent reports have led the world to expect the German counter proposals appear to take issue with the Allies on nearly all the important phases of the treaty, according to summaries received from Berlin and Paris.

Immediately after the presentation of Germany's reply Count von Brockdorff-Rantzau, chief of the enemy peace mission, will, according to reports, leave Paris for Spa. Whether his departure will mark his retirement as a member of the German peace mission is not known. Several minor members of the German mission left Paris for Germany yesterday.

This afternoon a plenary session of the peace conference will be held for the purpose of communicating to the nations which broke relations with Austria the peace terms which the council of four has decided to present to the representatives of the former dual empire. There is as yet some doubt as to the subject matter of the terms, reports indicating that the reparations clauses will be presented at a later meeting.

VERSAILLES, May 29.—Baron von Lersner of the German delegation informally delivered the completed counter proposals to Colonel Henry, the French liaison officer, at 12.30 o'clock today. The Germans explained that there had been no time for translation, which would be sent later. The volume containing the counter proposals is not bound, corner fasteners holding together the 145 pages.

PARIS, May 29.—The counter proposals formulated by the German delegation at Versailles have been delivered to the French authorities. The proposals probably will go before the council of four of the peace conference at this morning's session. The German reply was received in instalments. The first instalment comprised 88 pages. Other instalments followed this and it was understood that the delivery of the document would be completed within the time limit. The reply is written in German and bears the caption "Observations of the German Delegation on the Conditions of Peace."

PARIS, May 29.—It was stated in high quarters this morning that a settlement of the Adriatic question now is a certainty as a result of the negotiations of yesterday and last evening. Under this settlement France becomes an independent city.

PARIS, May 29.—When the peace conference met in plenary session this afternoon to hear the Austrian peace terms it was announced that the treaty had not been completed. It was decided therefore to postpone the session until Saturday when the completed treaty was expected to be ready.

Another reason for postponement of the plenary session was a request from the smaller powers, especially the Balkan states, that they be allowed further time to consider the terms.

PARIS, May 29.—It is reported that the presentation of the peace terms to the Austrian delegation which had been planned for Friday noon has been postponed until Monday.

Vast Allied Army Will Move Into Germany If Ruas Fail to Sign.

LONDON, May 29.—The allied blockade council at Paris has completed all arrangements for again putting the blockade of Germany into force in case the German delegates refuse to sign the peace treaty, while complete plans have been worked out for the fullest cooperation between the military and economic forces which will be employed in case of necessity.

Immediately following a failure of the Germans to sign the treaty, putting the allied and associated governments to the necessity of acting, Germany will be given 72 hours' notice of the termination of the armistice.

HICKEY IN PERIL

Local Driver's Machine Blows Tire on Speedway at Indianapolis.

INDIANAPOLIS, May 29.—A second near-disaster occurred at the Indianapolis speedway where drivers are warming up for the International Liberty Sweepstakes race when Denny Hickey of Connellsville, Pa., blew a tire on coming out of the southwest turn of the track and spun around three times like a top before he could get his mount straightened out again. The third time that Hickey gyrated crazily around on the brick oval, the tail of his car shot over the retaining wall on the inside of the track, flattening it out underneath as neatly as though the operation had been performed by an expert sheet metal worker. Luckily the frame and wheels did not strike, or Hickey might have rolled over as Buzane did the day before, with perhaps not such a happy ending to the story.

Hickey is given credit for handling his car during the trying moments of his near catastrophe like a veteran, getting it under control again as soon as was humanly possible and proceeding to the garage as though nothing had happened. Both driver and car were unscathed, save for the flat spot underneath the tail of the car.

The delay, however, is not due to hesitation on the part of the prospective buyers nor on the part of the trustees, the contract of sale having already been drawn up and conferences indicating that the principals are now ready to affix their signatures to the transaction.

Force to be Sent Against Villa Too Small to Protect Americans, Said to be Government Reason.

WASHINGTON, May 29.—President Carranza has been notified by the American government that permission for the passage of Mexican troops through American territory will be withheld for the present. Mexico had asked to be permitted to move 2,000 men from Agua Prieta to Juarez for operation against Francisco Villa's forces.

It was said today officially that the decision of the government was based upon the belief that the force which was proposed to move through Arizona, New Mexico and Texas would not be able to furnish protection to American citizens in Northern Mexico because the revolutionists had cut the road between Juarez and Chihuahua.

SCHOOL LEVY FOR YEAR 25 MILLS; SAME AS IN 1918.

Rate is Decided Upon at Special Meeting of Board This Morning.

REDUCTION NOT POSSIBLE THREE STRETCHES REMAIN

This is Shown in Statistics on Requirements for the Year Presented by Director Hart; Maximum Allowed by Law; May Elect Teachers.

A short meeting of the Connellsville school board was held this morning in the high school for the purpose of fixing the tax millage. The levy was placed at 25 mills which is the same as that for last year.

Figures prepared by Director A. W. Hart, chairman of the finance committee, showed it would be impossible to lower the millage. The 25-mill tax is the maximum allowed by the law. The same tax was set by the Uniontown school board at a recent meeting.

E. R. Flinn was re-elected tax collector. Nothing else was done. The meeting was held this morning as it is required by law that the tax millage be determined before the end of May. The next regular meeting of the school board will be held on Monday, June 2. The school board has yet to elect the teachers for the next term. This may be done at Monday's meeting.

IMPROVEMENT OF ROADS HINDERED BY SPEED DEMONS

People Along Route Likely to Become Race Course Hesitate Before Signing Petitions.

The inevitable result of speeding motorcycles on the good roads of the county is that people will not sign petitions for improvements in order to thus protect themselves and their children from the speed demons. Such was the opinion of a prominent business man this morning when approached on the question of speeding. "It is a fact," said J. Fred Kuriz, "that the people living along the Pennsylvanian road are terrorized with these racers who care for nothing but their own personal enjoyment. If a man in a car blows his horn two blocks away from a crowd of children they scatter like chickens. It will become so that a man when approached to sign a petition for a better road will refuse, thinking that it will become a veritable speedway for these men."

"I do not mean that automobiles are free from all blame, but they are not nearly so bad as the motorcycles. The motorcycle is so much more dangerous. The incident at Trotter a few days ago will bear me out in that."

Mr. Kuriz mentioned especially the Pennsylvanian road as the main highway for the speeders but it is the opinion of others that the Uniontown road is just as bad if not worse for the reason that after Coalbrook is passed there are few pedestrians, but from Trotter all the way in to Leisenring, where there is a stretch of good road that is much used, the driver has to look out for an automobile on one side of the road and a crowd of children on the other.

One man made the declaration that every man who owns a motorcycle should be arrested because, as he said, they all have the craze for speed. Another said that one did not need to go outside of the city to find the speedsters not only on motorcycles but on motor trucks belonging to local merchants and also in private cars.

Race street seems to be the best place for the people who drive in town. Many of the trucks do not have mufflers and those who do not use them. It is the opinion of many local men that council should make new traffic ordinances or enforce the old ones. Either is preferable, they say. One man declared that he intended bringing the matter before that body at their next regular meeting.

ENGINEERS AT WORK ON STATE ROAD TO WEST

Improvements Coming on Vanderbilt-Perryopolis-Fayette City Route.

Activity of engineers who have been working out of Connellsville for the past week on the state road between here and Fayette City, via Perryopolis and Star Junction, indicate that improvements on the three uncompleted stretches of this road are to be made soon.

For several days the engineers had been working on the stretch from halfway up Limestone hill on the West Side to near the Smith Patterson farm. This having been finished the men left this morning for Vanderbilt, where they will make their headquarters while working on that vicinity.

Completion of this state highway would mean a new improved route from Connellsville to Pittsburg, through the Monongahela valley. At present the road is not traveled a great deal by persons going to Pittsburg. The surveyors are now working on the stretch between Vanderbilt to near Flatwoods and from that place will go on to a stretch which lies between Star Junction and Fayette City. The engineers working on the job are Edgar Powell and Quay Rush, Uniontown; C. G. Paulson and his brother, Greensburg; and Curtis Rankin and H. W. Gracy of Washington, Pa.

It is understood here that work on the Farmington to Connellsville road will begin on the Farmington end, between that place and Ohio, some time during the early summer.

This bill is but one of a series to reorganize the department of public instruction. Others are to appear next week. The department of public instruction and the state board of education have been operating separately. It is understood they are to be amalgamated, and Thomas E. Finegan, the new superintendent, placed at the head.

SPRING FOOTBALL

Preliminary Training Introduced by Coach Fred Bode.

Preliminary training for green football-candidates who are expected to strengthen the Connelville high school team next year is being given the boys in the gymnasium by Physical Director Fred Bode, who is also coach of the football team. The boys are getting practice in falling on the ball, running, and are being instructed in both how to throw and receive a pass and how to kick the ball.

Spring football training is something new in the Connelville high school and the boys are showing more than just a passing interest in it. Each evening after school there are approximately 26 to 30 candidates out on the floor for instructions.

The team loses some of its best men through graduation this year and to make the 1920 year a successful one new material will have to be developed. To save time when school starts next year Coach Bode is now giving the new candidates this preliminary training.

Just what the next school term will develop is still in doubt. There may be some men from the outlying districts—who will fill up some of the holes, and Coach Bode believes some of the "youngsters" who will be out next season have the earmarks of good football players.

BUT HE WENT WITH SPEED

That Was About All Witness Cared to Testify as to the Gait of Defendant.

The trial was in the Marion circuit court, on appeal from the police court, where the defendant had been guilty of violating a city ordinance prohibiting the throwing of rubbish in the streets, relates the Indianapolis News. The charge had been preferred by a neighbor, who filed his affidavit setting forth that the defendant had willfully, unlawfully and maliciously thrown certain particles of glass into the street in front of affiant's residence.

During the hearing of testimony in the county court the defendant's lawyer, with all sails set, let loose his best line of cross-examination of the complaining neighbor.

"You say, Mr. Witness," the lawyer sneered, "that you saw this defendant throw some glass in front of your house and then run back to his front door—you mean to tell this court that he ran or just simply walked fast?"

"I guess I know when I see a man run," the witness half answered.

"I say, did he run or just walk fast?" the attorney thundered.

"Judge, your honor," the witness excitedly replied, as he turned and faced the judge, "This here same lawyer made me a liar in police court. He might for all I know gone sixty miles an hour. I ain't no judge of human nature."

Honest Advertising

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be. That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained. Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public, and from which he honestly expects to receive his reward.

Genuine Castoria always bears the signature of *Dr. J. C. Fletcher*

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous,
Keen-Minded, Men and Women

It has been said of Americans that they work their habits over-

time. Many become nervous and inefficient by overwork.

By worry, dependency, social affairs, robbing brain and body of needed rest; excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Timidity, dependency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abated nerves. People with plenty of red blood corpuscles and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support.

There is hardly a more shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not only a man but as men now go, a superman, you must take seven tablets of Bio-Ten every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days' take one only after meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel ambitious, more vigorous and keen-minded; the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

Bio-Ten is without doubt the grandest remedy for nervous, rundown, weak, anemic men and women ever offered direct through druggists and is not at all expensive. All druggists in this city and vicinity have a supply on hand—tell many packages.

RETURNING SOLDIERS' TASK.

Among those who got no nearer the right lines during the war than to occupy the front row in the audience, or a place among the vice presidents on the platform at patriotic meetings held at home, there are few, if any, qualified to give advice to the returning service men as to their duties when they resume their places as civilians. In fact, it is little short of presumptuous for such persons to essay the role of advisers in these matters. No matter how much they themselves may have done to keep up the home end of the fight against the Huns they do not have the viewpoint of the men who kept up the other end. But among those who shared the hardships and dangers of the service overseas, and who know how the soldiers thought and reasoned things out for themselves, there are those who to whose words of caution, warning and admonition the soldiers are both ready and willing to give heed. Thus they are certain to give thoughtful attention to an editorial in a recent number of The Watch on the Rhine, the newspaper edited by soldiers with the Third Division of the Army of Occupation. Under the caption, "Your Task," this editorial reads as follows:

"We want to say just a few words to you soldiers who will soon go home and be soldiers no more, at least not soldiers of war, but of industry. There is a certain amount of unrest at home in the States and various organizations here and there are beginning to strike. Under the cover of these strikes, the Bolsheviks and I. W. W.'s are coming out from their holes where they have been skulking during the war, and to the name of labor are committing excesses. Certain sections of labor are making demands and putting the government's mediation. Certain sections of capital are sitting pat and when the moment presents itself lowering wages. This policy is demanding and conflicting. What union is conferring and demanding. They finally threatened drastic action and strikes. Therefore a committee from Congress has been sent to the Chamber of Commerce—in fact committees sent you can't rest, appeal to all labor and capital for 'order' and 'calm.' One wants a four-hour day and triple pay, the other a strike and a wage cut in wages. Between the two, what are we—you to do?"

"That! When you get home line up with the law and order crowd. Remember that you have served your country as a soldier and preserved it from harm. Then get busy and preserve it again. Freewill on the labor which asks too much—do not listen to capital which would take too much. And then take the Bolshevik and kick him into an obituary from which he cannot arise. After you have put yourself in this position start to think out a sane and sane policy by which these disorders may be restrained and of a Supreme Court of Mediation as well as a Supreme Court of Justice before which both nationalistic capital and recalcitrant labor must bow the knee and receive their fair verdict. "But in the meantime while you are striving for these ends, keep the A. E. F. constitute yourselves the guardians of your Nation's internal peace as faithfully as you have constituted yourself her guards abroad. Do these things and you have indeed served your country."

CHANGE IN INCOME-TAX EXEMPTION.

The proposal before Congress to amend the income tax law so that the amount of exemption allowed married men shall be \$4,000, instead of \$2,000 as at present, will meet with favor among well-paid mechanics and salaried men. No that the expenses incident to the war no longer require extraordinarily heavy taxation, Congress can very safely make material modifications in the income tax law as it affects men of moderate incomes. It is only fair that the bulk of taxation should come from those who earn the most; but during the war the salaried man did not properly belong in that class. He, more than the ordinary wage earner, suffered the pinch of war-time conditions because of the heavily increased living expense he was obliged to meet without much, if any, advance in salary. Of all classes he was forced to practice more stringent economies than any other. Very few mechanics and salaried men who had net incomes of more than \$2,000 last year did not have difficulty in meeting their taxes this spring because of the reduced time they were employed since January or reductions in wages or salaries which have, in some few instances, been made.

The falling off in the amount of revenue the government derives from the income tax would be comparatively slight by a change in the exemption from \$2,000 to \$4,000, but it would save taxpayers the small sums that compromise the difference between having a balance in bank and in going in debt in a year year to pay the taxes on the income of the last year preceding.

Mitchell Palmer's candidacy for the presidency in 1920 will be based, it is said, on a straight prohibition enforcement platform. That means he will have to be nominated by the Republican instead of the Democratic party, if we are to take the record of the head of the latter as representing the changing views of Democracy upon the "wet" and "dry" issue.

The more demonstrations the Boy Scouts make the better is the value of this organization made known to the parents of boys who are not scouts.

That decoration conferred upon the crew of the American seaplane NO. 4 by the Portuguese government is all right, and will be highly prized, but the honor that counts most is embraced in the significant words: "Americans the First Across."

The dope fiends who copped the dope from a West Side drug store seem to have had straight dope before they started on their quest.

That is a rare courtesy the Grand Army is to confer upon the World War veterans by giving them the place of honor in the Decoration Day parade, but one fittingly to be bestowed.

The German peace delegates can't get it out of their system that the peace treaty is a bargain and sale proposition.

We can all count on the women's part in the Home-Coming Celebration being one of the real big features of the occasion.

Western Pennsylvanians outside of Pittsburgh should take notice that the 60th, another of that city's "town" divisions, is now arriving on home shores.

The big noise raised in the Senate over the election of Senator Penrose as chairman of the finance committee turned out to be the partisanship of the Democrats; not opposition to the senator's own party, as the Democrats loudly proclaimed.

Just Folks

Edgar A. Guest.

PHILOSOPHY.

"This is a mighty world you're in. An' so don't spread yourself too thin. My wise old father used to say, 'Just do your best from day to day; Make sure of everything you touch; But never undertake too much. Remember as you go along To sing a cheerful snatch of song; But be contented if a few Into their hearts shall welcome you. Life has its tasks both great and small; But no one man can do them all. It's settled by a natural law How much a willing horse can draw; And if beyond his strength he tries To fallure, broken-down, he dies. Some men neglect the little things To seek the praise which greatness brings; And miss the goal, and in the end Find they have lost the near-by friend."

No man, however wise and strong, Can bear the burdens of the throng. Who seeks to serve too many here Brings no out happiness and cheer. And this is also truth, I tell, Who tries too much does nothing well. God has assigned us certain tasks And nothing more of us He asks. He shall succeed by every test Who does no more than just his best.

"This is a mighty world you're in. An' so don't spread yourself too thin. Be good and brave and kind and true And serve with faithfulness the few. Be satisfied to earn the praise Of those who follow in your ways. If you bring happiness to them You need not care what tongues condemn. This is the test for every man That he shall do the best he can."

VOLUME OF STEEL

PURCHASES SHOWS FURTHER INCREASE

Less an indication of confidence than of buyers having larger wants; large tonnages being booked.

Special to The Weekly Courier.—NEW YORK, May 25.—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trades tomorrow as follows:

—There has been a further increase in the volume of purchases of finished steel products. While all producers now talk in very optimistic vein, partly as a reflection of the interchange of views at the Institute meeting last week, it is not a case of "confidence" but a case of buyers having larger wants and proceeding as formerly to fill such wants as they have. The general business of the country has increased.

—The United States Steel Corporation, which early in the year had operations much in excess of those of the independents, and later did not seem to be booking as much business as independents, is now booking large tonnages, its new orders and specifications against contracts having represented more than 75 per cent of capacity since the first of the month. If this volume of business continues production will have to be increased. Most of the independents are booking more business than formerly. Steel production was at 77 per cent of capacity in March and 65 per cent in April, while it seems to have dropped to about 55 per cent of late. The decline is probably arrested and operations during the summer may be at a somewhat larger rate.

—The Railroad Administration has bought the rails it needed, 200,000 tons, at \$47 for open-hearth, this being 53 per cent above the pre-war average. Very little other railroad buying is expected for delivery during the remainder of the year, this being one of the reasons the steel producers were unwilling to make price concessions when the Railroad Administration urged such a course.

—The flow of steel is into substantially the same channels as formerly, there being very little demand for steel for large works of permanent construction. Such demand may develop soon, or next fall, or next year, but it is not a feature at present.

—Steel buying is all for early shipment, except that a few contracts have been made for merchant steel bars for third quarter.

—There is some price cutting in nearly all finished steel products, but the cutting is far from general. Whether the present increased demand will furnish a further incentive to price cutting or will discourage it remains to be seen.

ECZEMA CAUSED YEARS OF INTENSE AGONY

"I have suffered intense agony from eczema on my leg and other parts of my body for years, and received only temporary relief from other preparations. It is only a month since I started to use PETERSON'S OINTMENT, and there is no sign of eczema or itching. You can refer to me."—Geo. C. Talbot, 27 Penfield Street, Buffalo, N. Y.

"I've got a hundred testimonials, says Peterson, of Buffalo, just as sincere and honest as this one. Years ago, when I first started to put out PETERSON'S OINTMENT, I made up my mind to give a big box for \$5 cents, and I am still doing it, as every druggist in the country knows."

I guarantee PETERSON'S OINTMENT because I know that its mighty healing power is marvelous. I say to every one who buys a box that it is rigidly guaranteed for eczema, salt rheum, old sores, blisters, bleeding and itching piles, ulcers, skin diseases, chafing, burns, scalds and sunburn, and if not satisfactory, any druggist will return your money.—Adv.

Ru-ber-oid For Them All—

For your factory, shipyard or munition plant there is no roofing so practical as Ru-ber-oid.

Old fashioned tar and gravel invariably drips in summer, cracks in winter and develops annoying "Sore Spots". The cost of metal roofs—both in material and time—makes them almost prohibitive. The most economical roofing for your factory is

RU-BER-OID ROOFING

Ru-ber-oid can be laid quickly by any handy man. With proper care it will outlast the best metal roofs. (There are Ru-ber-oid roofs still in service that were laid over twenty-five years ago). Ru-ber-oid is adaptable for all types of roofs from flat to "Saw Tooth." Its upkeep cost is particularly low. It is fire resisting, weather resisting and will not rot or corrode from contact with smoke or acid fumes. In fact Ru-ber-oid

is ideal for roofing factories, shipyards, or munition plants.

When you think of ready-roofing—think of Ru-ber-oid—made by The Standard Paint Company for more than a quarter century.

There is no other roofing "just as good." We can supply you with Ru-ber-oid Roofing. Give us an opportunity to tell you more about it. Phone us today for samples and prices.

There is but one Ru-ber-oid.

INDEPENDENT STEEL COMPANIES RUMORED AS PLANNING MERGER

Inland of Chicago, Lackawanna of Buffalo and Midvale of Philadelphia mentioned as parties to it.

Rumors are again in circulation that an important merger of independent steel producers is being considered, says the American Metal Market. It is difficult to recall when such rumors first began to circulate, but the time was certainly many years ago, and at recurrent intervals the rumors have come again.

Whether to give such rumors fresh interest or because there really has been a change of attitude on the part of independent steel producers, with respect to the matter, it is now asserted that the advance in freight rates during the war makes a merger of independent steel producers a very interesting proposition. The well-known advantage of the United States Steel Corporation is pointed out, the Steel Corporation having plants widely scattered geographically so that it can save much freight by filling orders at the mill nearest the point of delivery. With the large increase in freight rates, this advantage is of course correspondingly increased. As Chairman Gary stated at the annual meeting of Steel Corporation stockholders last April, the Steel Corporation has never complained of freight rate advances.

OVER FOUR MILLION WORKERS GIVEN JOBS THROUGH U. S. AGENCY

A Total of 6,633,784 Filled Applications for Places, 4,657,259 of Which Found Employment.

Complete compilation of the placement figures of the United States employment service has been accomplished and in the 16 months of the activities of the service it is claimed that 4,657,259 workmen have been placed in positions suitable to them.

From the time of the organization of the employment body, 6,633,784 applicants have filed papers with the service for positions and of this number 5,975,890 were referred to vacant jobs. The service, in order to determine the actual number of placements effected, upon opening its offices maintained a return card system, which would inform them through the returning of each card how many of those referred received jobs.

"Figuring these 4,657,259 jobless men and women's time worth a minimum of \$2.25 a day," declared Director J. B. Denishore of the service, "it can readily be seen that if they are placed by virtue of having been assisted in securing a job one day sooner than they otherwise would have been, that the economical saving to them and the country in these 16 months amounted to more than \$10,000,000."

Kills Pesky Bed Bugs P. D. Q.

A two ounce box of P. D. Q. makes a full quart of the best bug-killer on earth. Better than a barrel of old-fashioned bug-killer.
P. D. Q. (Krazy Devil's Quiescent), kills like a 42-centimeter shell. It settles bed-bugs, fleas, roaches, ants and chicken lice, and not only kills the five pests but the eggs as well.
P. D. Q. won't injure clothing, carpets, curtains, draperies or wall paper. Try it on the dog and see the fleas fly. Sold by the Connellsville Drug Co. and other leading druggists.—Adv.

Attention to your ECONOMICAL buying, ought to be a fact well known to you.

If you need HOUSEHOLD FURNISHING GOODS, you also need the facts pertaining to the purchase of such goods.

The larger the expense any firm has to maintain, the larger the prices they are compelled to place on the sale of such goods.

I have no solicitors, collectors, high salaried salesmen, high rents, high insurance or extra help to maintain. Consequently this constitutes LOW PRICES on all my goods.

I invite you to come in and inspect and compare goods and prices with houses of large expenses, and you will see the proof of my assertion.

If you are a catalog buyer, I offer you the privilege of selecting your goods from a million dollar catalog stock.

You need not pay in advance as you must do when buying from a mail order house. But you will be given the privilege to inspect the goods you ordered before paying for them. If then you are not satisfied, you are not obliged to take them. That's fair enough, is it not?

"Vidal has returned, senior."

Billy Stanway awoke with a start.

The late afternoon sun was streaming through the drawn curtains of the

guestroom to which he had been shown, and Pedro stood over his bed.

"Vidal has brought Mr. Dempton back with him?" he asked, sitting up.

"St. senior," grinned Pedro, "I think that Mr. Dempton did not like to come, but—and he shrugged eloquently—"you know Vidal, senior."

"Torre and Juarez have had no word together? They show nothing of our having brought Dempton to the ranch?"

"No, senior."

Stanway slipped out of bed, his great shaggy body towering for a moment over the lesser form of the

breed.

"You are a gentleman, Pedro," he said warmly. "Your master, when he comes back to us, will have you to thank as much as anyone. Now, will you ask your senorita to come to the library? And then will you see that Vidal brings the lawyer there?"

Pedro went about his errand, and Stanway, dressing swiftly, went to the library, which he had chosen because it was at one end of the house, and so a place in which to converse without fear of being overheard by Torre or the captain.

Vidal was there before him, a big man with a beautiful body and a

scarred, ugly face. And with him, looking grotesquely small, pitifully inefficient in the presence of his guard, was Dempton.

"Mr. Stanway, sir!" The lawyer was upon his feet in an instant, his

face red with anger, his speech eagerly to the point in a stream of barely articulated words from between his

writhing lips. "Are you one of this damnable conspiracy, sir? It is outrageous; it is outrageous; it is sheer defiance of every statute!"

"Good, afternoon, Mr. Dempton," said the rancher pleasantly. "There is no conspiracy on our part. We merely wish to ask you a few questions, even to give you a chance to get out of this mess skin-whole. Sit down. The senorita will be here in a moment."

The door opened and Teresa came in. She nodded brightly at Stanway,

bestowed a look upon Vidal which plunged him into an ecstasy of delight, and with no word to Dempton went to Stanway's side.

"Have I kept you waiting?" she asked.

"No. I came in just a second before you." He drew out a chair for her and turned to Vidal. "Vidal, we have a few words to say to Mr. Dempton. Will you wait in the patio? I shall call you when we want you."

"Dempton," Stanway went on "what passed between you and the Senor de la Guerra last night?"

"He sent for me to make a change in his will," said Dempton glibly. "He gave no reasons for what he was doing, although he must have noted my surprise."

"Did you know that he has been engaged during several years on his

memoirs?"

Dempton, a lawyer trained to ask just such questions as that, looked at Stanway quickly, suspiciously. He hesitated a moment before answering.

"I have heard him speak of it."

Stanway smiled at the girl, which she returned, and Dempton, plainly puzzled, watched them closely.

"The law is rather severe in the punishment it metes out to kidnappers, is it not, Mr. Dempton?"

"Yes."

"There is what you men of the law term an accessory before the fact?"

"Certainly," snapped the lawyer. "But if you care to consult me in a legal capacity—"

"I don't," lightly. "We are sending for Mr. Branson of Branson & Howard to advise us."

Dempton's tongue ran back and forth between his dry lips.

"Now," went on Stanway, without waiting for an answer, "how much money did Torre pay you for your part?"

Again Dempton had leaped to his feet, his face flushed, his eyes shining.

"You mean to insinuate—"

"Sit down!" Stanway caught him by the shoulders and drove him back into his chair. "Did you know that after you had gone out before he was

spirited away Senor de la Guerra added certain notes to his memoirs?"

"What are you driving at?" fumed Dempton.

Stanway stepped to the door.

"Vidal," he called, "Mr. Dempton will remain here in the library. You will see that he does not grow lonesome? Bueno." He came back to Dempton's side and added quietly: "I am driving at this: the senior made certain observations upon the character of Americans. He mentioned the fact that a certain man had just come and gone whom he did not trust; he stated why that man had come; he mentioned a law that that man had pretended to find—Ab!" as a look of sudden understanding and a quick fear with it leaped into Dempton's small eyes. "Now you see? Shall we leave them, senorita?"

Teresa stepped through the door, Stanway following and closing it after them.

"We'll have him scared out of his life in no time," he chuckled. "By tomorrow morning he'll be ready to tell everything he knows if we'll just promise him twenty-four hours to dig out in."

"You are very wonderful, Senior Billy!"

The look she flashed him was unmistakably full of gratitude; and his

leaping hope sought to reach something else in it.

"Teresa!" he whispered.

But she had slipped from him, laughing, and a lady maid was in his hands, and from the far side of the room, as she whisked into the hallway, she wadded him a kiss from her pink finger tips.

"Teresa!" he urged.

But the door had closed.

"And," he muttered, his eyes darkening, "after all, when I find her papa

grande for her he's just going to run me off the ranch! Unless—By Jupiter! I've a notion to do it!"

He was thinking of Padre Ignacio, the priest at La Panza.

CHAPTER VII

A Rat in a Trap?

Eduardo Ramon Torre, lounging before one of the deep windows of the drawing room, smoked his cigarettes and hummed gay snatches of song, evidently quite happy, seemingly unaware of the presence of Gaucha Morales and a brother vaquero, who, on the other hand, kept their eyes always upon the young Spaniard and their hard, brown hands close to their hips.

The door opened and Stanway came in. Torre did not turn, did not cease his gay music. The two vaqueros rose and stood looking at the American

curiously.

"Torre," called Stanway bluntly.

Torre turned, smiled, ended a last high note clearly, and only then bowed very deeply to the rancher.

"At your service, Senior Stanway," he said lightly.

"Gaucha," said Stanway, for the moment ignoring Torre. "I shall be with the senior for a little. If you and

SECTION 2—All garbage and other accumulations of noxious animal or vegetable matter, however offensive to the senses, within the limits of this city, shall be consumed in the city garbage furnace. Provided, however, that all crockery, glass, glass bottles, tin cans and ashes shall be submitted to the receptacles used for storing the garbage, but shall be handled and removed, free of charge, with the said garbage.

SECTION 3—No accumulation mentioned in this section shall be burned upon any street or alley, common or public grounds, or upon any premises, or in the open air, within the limits of said city, or deposited or left exposed on private property.

SECTION 4—It shall be unlawful for any person or persons to throw, or deposit, or cause to be thrown or deposited, or to permit to be thrown or deposited, any garbage as defined in this Ordinance, or any material or filthy matter upon any street, alley, gutter or public grounds of said city or into any stream running through or adjacent to said city.

SECTION 5—No person, firm or corporation shall engage in the business of collecting and disposing of garbage, or refuse, or ashes, or other material, within the city limits, except in the manner provided in this Ordinance.

SECTION 6—Any person, firm or corporation desiring permission to collect garbage within the city limits and transport the same therefrom to be consumed, shall transport the same to the garbage furnace of the city to be there consumed and shall submit to the Superintendent of Parks and Public Property, before so doing, a full statement in writing of the nature of such garbage and the full description of the vehicles and receptacles by which the said garbage is to be transported and all vehicles, wagons or any other means of transportation used for the removal of garbage, shall be subject to the approval of the Superintendent of Parks and Public Property from time to time, who shall have full power and authority to condemn any such means of transportation and prohibit the use thereof when in his judgment not fit, suitable and proper for such purpose. All such vehicles shall be collected and transported so that no part thereof shall be spilled or fall upon the street or any private property.

SECTION 7—Every person, firm or corporation in the City producing garbage shall have it removed in the manner provided in this Ordinance; shall provide a suitable garbage can to be provided by the Superintendent of Parks and Public Property, in which said garbage shall be deposited as it from time to time is made or produced and a separate receptacle in which shall be deposited all crockery, glass, glass bottles, tin cans, and other like articles.

SECTION 8—The City will award to any person, firm or corporation, who will agree to comply with all the terms of this Ordinance the sole and exclusive right to collect garbage within the city limits, and who will pay to the city the specified license tax as specified herein for such privilege, or award may, from time to time, divide the city into suitable districts and award the said rights for one or more such districts separately.

SECTION 9—Any person, firm or corporation desiring such privilege shall give bond, with sureties to be approved by Council, in the sum of Five Hundred (\$500.00) Dollars, conditioned for the faithful performance of all its terms and conditions of this Ordinance, shall enter into a suitable contract, the form of which shall be approved by the City Solicitor, and executed by the City or the City by the Superintendent of Parks and Public Property, after the award by Council.

SECTION 10—The City shall, unless and until otherwise provided, at its own expense operate the garbage furnace, at which shall be consumed all of the

garbage as herein provided, without cost or charge to the person, firm or corporation collecting and delivering it, and in such case the City shall have and retain for its own use all salable parts of the garbage so collected, as well as all bi-products of the consumption thereof, or the City may lease the said plant either to the person, firm or corporation having the right to collect garbage within the city, or otherwise, in which case all salable parts of the garbage collected, as well as all bi-products of the consumption thereof, shall belong to the lessee or lessees.

SECTION 11—The supervision of the collecting and disposal of said garbage shall belong to the Department of Parks and Public Property, and the Superintendent of the said department is hereby vested with full authority to make all needful regulations not contrary to law and in conformity with this Ordinance that he shall from time to time deem advisable to accomplish the ends and purposes of this Ordinance. 1,000 GERMANS AT GRAVE

Enemy Said Ceremony Was Partly to
Pay Honor to Aviator's Father,
According to Story of Captain
James E. Gee of Monongahela.

MONONGAHELA, May 29.—The elaborate military funeral given by the Germans to Lieutenant Quentin Roosevelt, youngest son of the late Colonel Theodore Roosevelt, who was killed in an air battle near Chateau-Thierry, July 14, 1918, was graphically described for the first time by an American eye-witness. Captain James E. Gee, commanding officer of Company A, 110th Infantry, told the story.

Captain Gee was captured July 15 near Conde-en-Brie, in the fifth German offensive. On his way to the rear he passed through the little village of Chambray, 10 kilometers north of the Marne, near which Lieutenant Roosevelt's airplane had fallen. As he was marched past the spot where the plane had crashed to earth he witnessed the funeral service.

In a hollow square about the open grave were assembled approximately 1,000 German soldiers, standing stiffly in regular lines. They were dressed in gray field uniforms, wore steel helmets and carried rifles. Officers stood at attention before the ranks. Near the grave was the smashed plane and beside it was a small group of officers, one of whom was speaking to the men.

"I did not pass close enough to hear what he was saying," said Captain Gee. "We were prisoners and did not have the privilege of hearing, even for such an occasion as this. At the time I did not know who was being buried, but the guards informed me later. The funeral certainly was elaborate. I was told afterward by Germans that they paid Lieutenant Roosevelt such honor not only because he was a gallant aviator, who died fighting bravely against odds, but because he was the son of Colonel Roosevelt, whom they esteemed as one of the greatest Americans."

Reduce Those Dangerous Swollen Veins

Physicians are prescribing and hospitals are using a new and harmless yet very powerful germicide that not only causes enlarged or varicose veins and blemishes to become normal, but also reduces swollen, enlarged glands and wens.

Ask any first class druggist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces last a long time and furthermore if this wonderful discovery does not produce the results anticipated, you can have the price refunded.

It is not wise for anyone to allow swollen veins to keep on enlarging. Often they burst and cause weeks of pain, suffering and loss of employment. Start the Emerald Oil treatment as directed and improvement will begin at once. Your druggist can supply you.—Adv.

Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Allergic Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work. He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Connelville Drug Co. can supply you.—Adv.
